Art Unit: 3632

This is an office action for serial number 10/038,031,  
entitled Mobile Camper support System.

### **Election of Species**

This application contains claims directed to the following  
patentably distinct species of the claimed invention:

Species I drawn to figures 1-8

Species II drawn to figure 9

Species III drawn to figure 10

Species IV drawn to figure 11.

Applicant is required under 35 U.S.C. 121 to elect a single  
disclosed species for prosecution on the merits to which the  
claims shall be restricted if no generic claim is finally held  
to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must  
include an identification of the species that is elected  
consonant with this requirement, and a listing of all claims  
readable thereon, including any claims subsequently added. An  
argument that a claim is allowable or that all claims are  
generic is considered nonresponsive unless accompanied by an  
election.

Upon the allowance of a generic claim, applicant will be  
entitled to consideration of claims to additional species which

Art Unit: 3632

are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
